

Office and custom design furniture for modern living and working

Visit our website at www.nlmteo.ie

From the team at NLM Teo.

The last couple of years have brought new challenges to all businesses. We at NLM Teo have seen economies come and go and as we watch how modern furniture is evolving, we make furniture that responds and adapts to changing needs of the client. We are, through continuous improvement policies thinking about the emergence of a new workplace climate, the meaning of new workplace planning models and how ecological principles inform our product designs.

We engage in research activities, including independent field studies; collaborations with customers, universities and industry associations; and ongoing dialogue with experts from the fields of technology, architecture, design and business management.

Over the years we have provided furniture to numerous sectors to include, residential, hotel, healthcare, offices as well as other construction sectors and we pride ourselves in our high standard of quality, design and installation. Please feel free to view our website at www.nlmteo.ie to obtain a real feel for our company and view our product portfolio.

Yours sincerely,

*Noel Lydon
Managing Director*

Welcome to NLM Teoranta

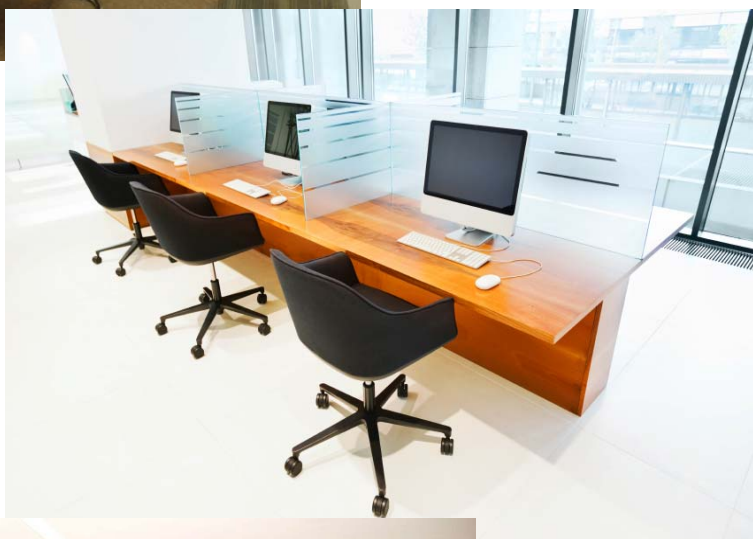

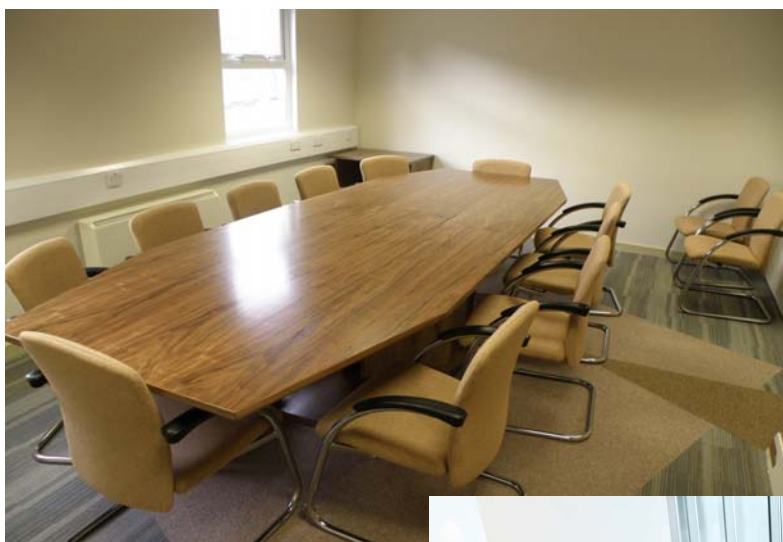

N.L.M. Teoranta was first established in 1992, trading as Noel Lydon Woodcraft. Whilst originally involved in the mainstream fitted furniture sector, the company has evolved to become the leading manufacturer of tailored office furniture solutions in the Western and Midlands region.

The key to the successful growth of our company in recent years has been the targeting of the office furniture sector in which we have identified substantial demand. Since 1995 N.L.M. has concentrated on growing this aspect of the business to the extent that it now accounts for at least 90% of the company's turnover. The company is recognised as a significant player in the office furniture sector, offering total office solutions tailored to customer requirements. Testament to this is the significant number of contracts and repeat business received from large companies and organisations regionally and nationally.

N.L.M. is recognized nationally for creating workplace furnishings that inspire, evolve and endure. Our commitment to innovation and modern design has yielded a comprehensive portfolio of office systems, seating, files and storage, tables and desks, wood casegoods, textiles and accessories.

Since our founding in 1992, design integrity has been our guiding principle as we offer insight into the way business is changing and into what's possible—now and for the future.

Office Furniture

Space Planning

Space planning is an essential part of the modern day office. With our team of highly skilled designers, we aim to fulfil the planning requirements of our clients. Our planning service ranges from detailed 2D CAD plans to impressive 3D renders. All plans are produced to the highest standard creating the most stylish yet practical working environment.

Case Study

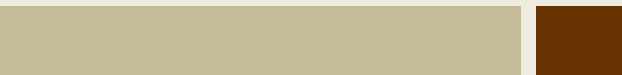

The challenge with this project for the National University of Ireland Galway was the use of space to combine working space with storage space incorporating the natural light from the large windows. NLM Teo worked closely with the client to develop a solution which was modern, comfortable and practical for working and storage requirements.

Custom design furniture is an important part of our clients needs. A major factor in the success of NLM Teo as a leading furniture manufacturer is our ability to design bespoke furniture to specific client requirements. With over 13 years of knowledge and expertise in the industry, the team are fully aware of the challenges involved and guide the client to ensure their requirements are met, The furniture is ergonomically designed to fit the purpose as well as looking stylish and modern.

The above reception are was custom designed with a height adjustable desk for wheel accessible use.

The above project was designed for maximum use of space in a restricted area. Post Grad rooms NUIG.

NLM Teo believes in listening to our clients and including them in the design process.

Manufacturing to Installation

From the arrival of our manufactured product to our customers' location, our clients can be assured that extensive quality assurance measures have been implemented from the moment the first sheet of raw material arrives on our premises to the final assembly in situ. These procedures have been finely honed by Noel Lydon as managing director and come from many years of experience in manufacturing and fitting furniture.

Over the years, this expertise can only be fully gauged by the quality of the products we have supplied to an extensive list of customers.

Over the last number of years the attention to detail of our fitters when they install on site is second to none. We have attended many seminars and trade shows since first commenced in business, sourcing the best equipment relevant to our manufacturing division and also ensuring that the quality of fixtures and fittings used by us in both manufacturing and final installation are second to none.
